WHEREAS, in 2010, the Town Council of the Town of Castle Rock, Colorado (the “Town”) directed Town staff to prepare and present annual updates to Castle Rock Water rates and fees; and

WHEREAS, the Town Council has considered and accepted Castle Rock Water’s analyses and recommendations and the following reports prepared by Stantec Consulting Services, Inc.: (i) the 2023 Castle Rock Water Rates and Fees Study Update – Vol. 1 of 2: 2024–2028 Rates, Final Report dated September 2023; and (ii) 2023 Castle Rock Water Rates and Fees Study Update – Vol. 2 of 2: System Development Fees, Final Report dated September 2023; and

WHEREAS, increases in the actual rate of growth for the last five years over projected growth rates, changes to estimates on long-term buildout of the Town, disruptions to the renewable water rights market based on increased water scarcity, increases in inflation and construction costs for water infrastructure, requirements to issue debt to smooth future water rate increases, updates to long-term capital plans to support growth, and increases in the costs for water rights and meters all substantiate the proposed changes to Stormwater Development Impact Fees, Renewable Water Resource Fees, Water and Wastewater System Development Fees, and Water, Water Resources, and Stormwater Rates and Surcharges; and
