11	The number of trees and shrubs looks good on the design but if they are not watered and maintained then they will die (like the new evergreens that died last spring)!!! Pruning and picking up branches that have fallen from snow or wind needs to be done regularly.	11/20/2020 9:32 PM

28	Our family would love to see a bike pump track on the unused area next to the tennis courts. This would be an easier version of a bmx track and is very popular in mountain towns and Valmont bike park in Boulder for example.	11/9/2020 5:29 PM
29	A 10-15 person pavilion is not large enough and where you have put it is not separated enough from other activities to have any sense of privacy for a specific group wanting to use it.	11/9/2020 12:41 PM

11	Please keep the existing playground during the renovations so that children will have a place to play. There should be an additional basketball full court. It is the most used thing in the park. Teenagers are on it every day with some standing waiting because there are not enough courts. More basketball less pickle ball! Pickle ball is a current fad. We need things for the teenagers. There is nothing in this which addresses the problem with skateboarders using the art platform and the tennis courts because they have no other challenges. There should have been a skateboard area included. The changes need to be phased in so that not everything is torn up at once. The basketball court(s) should not be disrupted for more than a week. We are 81 yrs. old and go to the park every day, as do some of our neighbors, except during snow storms. We would like to have seen more benches added along the sidewalks. Thanks for the newly added bench this summer. The core plaza should have had another covered shelter with tables on the opposite end of the restrooms.	11/20/2020 9:32 PM

20	My four little kids would really love to see short monkey bars as well as big monkey bars in the new playground. They were really sad when the Meadow View Elementary's playground (which included both of those features) were ripped out and the short monkey bars were not replaced. They also requested a big long slide in the new playground. My husband thought an outdoor gym would be a nice addition near the top of the new fitness stairs.	11/16/2020 6:57 PM

24	I've heard older children/teens are also in need of things to do. I do not have older children, but perhaps an additional survey (with that as the focus) or outdoor fitness equipment might benefit them.	11/10/2020 8:13 PM
25	Again, an area with exercise equipment to use for all ages.	11/10/2020 3:04 PM

64	Thanks for asking for feedback. Pickleball is becoming very popular, and it seems like it's continuing to grow.	10/22/2020 10:26 AM
65	In recent years, a lot of our community tennis courts have been converted to Pickleball courts. Both sports are important. At times it is difficult to find at least 2 tennis courts in the same location that are available. Often our adult tennis community utilizes the local high school tennis courts but that is not an option when school is in session. During the summer/spring sessions Bison Park tennis courts are utilized mainly for children/youth programs.	10/22/2020 10:24 AM
66	We spend quite a few dollars on the pools. I have lived in the Meadows since 2016 and have never visited them. I often ride my bicycle by the pools and they are not that busy. Other amenities like pickleball are low maintenance costs and are very busy (i.e. Parish Park).	10/22/2020 10:16 AM
67	Thanks for paying attention to our parks.	10/22/2020 9:35 AM

75	Think of all ages. Especially teenagers. It seems most park designs are geared for younger kids or are activities too expensive for teenagers to engage in on a daily basis.	10/16/2020 8:01 PM
